	) Practice: Yesterday's sleep and rest (in groups) c) Islands metaphor (Session 7)			
	d) Quality monitoring			

#### RAFT Tutor interview schedule

# Introduction

This is an opportunity to discuss your experience of RAFT. Hearing about your experiences will help us to understand the practicalities, challenges and benefits of training nurses and allied health professionals to deliver the programme. As well as telling us about this research trial, your views and ideas will inform how RAFT will be rolled out in the future.

## Prior to RAFT

Please tell me about:

- I. Your reason(s) for deciding to take part in RAFT
- II. Any previous experience of working with groups
- III. Any previous experience of using cognitive-behavioural techniques
- IV. Any other relevant experience (e.g. training in motivational interviewing)

## <u>Training</u>

We would like hear your thoughts on the 4 day training that you did in Bristol:

- I. The content
- II. The structure
- III. Your experience
- IV. Would you suggest any changes?
- V. How did you feel about delivering RAFT after completing the 4 day training?
- VI. How did you feel about the idea of delivering RAFT after doing your first practice run?

## **Delivery**

We would like hear your thoughts on delivering the 4 cohorts:

- I. Practical challenges
- II. Personal/professional challenges
- III. Co-tutoring
- IV. Were there particular sessions or aspects of RAFT that you found problematic or did not like?
- V. Clinical supervision
- a. Was this a helpful part of the process? If so, how?
- b. Were there any particular issues that you sought support for?
- c. Did the nature of clinical supervision change over time?
- VI. Did delivery of each cohort feel different? If so, how?

#### Impact on wider clinical practice

- I. Has taking part in RAFT had any impact on your wider clinical practice?
- II. Do you perceive any benefits to patients? / Do you perceive any drawbacks for patients?

III. Do you perceive any benefits for your professional development? / Do you perceive any drawbacks for your professional development?

#### In the future

Thinking about how we might roll out RAFT in the future:

- I. Are you and your wider team likely to support the delivery of RAFT in the future?
- II. Do you know whether you could access clinical supervision locally?
- III. Do you think training needs to be face-to-face? In a group? Would DVDs be useful?
- IV. Would you recommend changes to the manual? If so, can you describe them?

# <u>Close</u>

Are there any other aspects of your experience or thoughts about RAFT in the future that you would like to tell us about? Thank you for your time
